PROVIDING NORMALCY

FOR YOUTH IN FOSTER CARE

As caregivers, you know how resilient and brave children in foster care can be, while also understanding the challenges they face. Caregivers must navigate many decisions in order to provide a normal, safe and loving environment for children. In an effort to be a partner through this process, VDSS developed this resource guide. We hope this information will be helpful to you as you strive to be the best caregiver and advocate for children in your care, and help them reach their fullest potential.

The Preventing Sex Trafficking and Strengthening Families Act (P.L. 113-183) is a federal policy that was created to assist in the provision of normalcy in foster care by empowering caregivers to make everyday decisions regarding the activities of foster children and youth in their care so that these children can have as normal a childhood as possible. Normalcy can be further explained through the Reasonable and Prudent Parent Standard.
