QUOTES

“The Page Program was an opportunity that changed my life forever, for the better. I had always loved politics but after working with politics in that capacity I loved it even more. Being the Lieutenant Governor’s Page was a surreal experience, getting to be right there in the process, and playing a role in that same process was truly beneficial. Lastly, the people you meet, and the connections you make, will last forever and help you amazingly with your future careers”

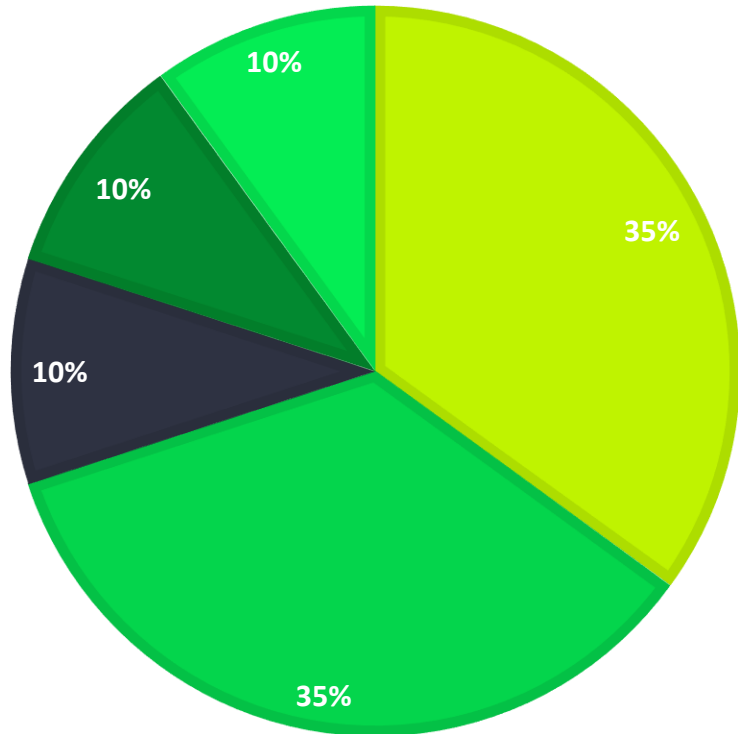

Ethan Lynne, Former Lieutenant Governor’s Page

“The Virginia House of Delegates Page Program had a significant impact on my life: I became educated on the day to day processes of the government, more efficiently grasped the concept of responsibility, and had the privilege of working in the environment that I dream to be a part of one day. I believe the Virginia Youth in Government Advisory Committee would offer a similar positive experience for teenagers who also wish to get involved in the lawmaking process of Virginia”

Lila Godfrey, Former House Page
